

Health Topics and Screenings

Health Topics and Screenings

At Advanced Health Professionals, we believe strongly in health awareness education. Our goal is to be a resource of cutting edge information to help you restore function, improve and maximize performance, increase energy and maintain a higher quality of life. In our efforts to promote this education to the public, we sponsor health awareness lectures, lunch-and-learns, interactive screenings and workshops for groups. The groups we sponsor events for include corporations, professional and civic organizations, and fitness facilities.
